Employment:

Digital Infinity d.o.o., Novi Sad: Fullstack developer (front heavy), Dec 2019 ~ May 2020

- Worked on a food-order and delivery app in React.js.
- Stylistically and functionally reworked a home furnishings client's existing app in React.js (added a tutorial system and updated the layout and colouring of the app).

Autview d.o.o., Niš: JavaScript/TypeScript developer, Jul 2021 ~ Jan 2022

- Worked on an app for the CAD industry (in Vue & Electron), where sensitive information including the user's location had to be collected and then protected.
- Worked on a client and payment tracking app for contractors, employers & landlords in Vue.js.

Prime Software d.o.o. – Feb 2022 – Sep 2022

- Maintained an internal administrative system with React & Next.js.
- Worked on a video sharing application using Vue.js and Nuxt.js to create an administrator panel and React.js and Next.js for the user-facing production application.

VRize D.O.O. – Oct 2022 – Present

- Worked on an appointment-making application for a US healthcare service.
- Documented projects taken over from third-party vendors.
- Worked on a medical application for Data Scientists in React.js and a medical supplier in Selenium / Java.

Software projects:

- Full-stack authentication and authorization system w/ capability to create multiple users and search them. A “social-network-like” application.
- A multi-page registration form in React.
- A photo-booth like application, which takes pictures on command and saves to the user's machine.
- A Trello-mockup application (drag-and-drop functionality with tickets).

Skills:

- Extensive knowledge of basic front end web technologies: HTML, CSS, JavaScript (ES6+)
- Deep understanding of React.js, Next.js & Node.js
- Prior experience with writing server-side code in Express.js, NestJS w/ TypeScript & FastAPI
- Experience with working with data in MongoDB & PostgreSQL
- Familiarity with Vue- & Nuxt.js
- Experience with Jest.js, Cypress and react-testing-library

Languages:

- Serbian: Native language
- English: Professional level
- German: Average/Intermediate level
- Japanese: Intermediate level
